Languages

Greek (Native) ● ● ● ● ●

English (C1 / Fluent) ● ● ● ● ●

Tests

TOEFL iBT: 95/120 (Jan 2026)

Tech Stack

</> Python, Java

Kubernetes / Docker

AWS / GCP / Lambda

HPC

ReactJs / ReactNative / NextJs

Experience

ML Research Associate

Ubitech LTD 06/2021 – Present

- Designed and deployed ML models and web applications for EU-funded research projects (TALON, LAW-GAME, TRITON, CYGNUS, MIRIOPOS, FIDAL).
- Site Security Officer (SSO):** Serve as Site Security Officer responsible for the security of the secure room at the company's Limassol office; underwent security clearance with the Defence Security Authority (DSA) of Cyprus.
- DevOps & MLOps:** Configured Kubernetes clusters with Kube-OVN and deployed models using Docker; implemented monitoring via Prometheus and InfluxDB.
- Agentic Pentest:** Developing automated penetration testing using an agentic AI workflow (ongoing project).
- Computer Vision:** Developed and finetuned Computer Vision models (YOLO, CNN) for detecting wildfires and human intruders, as well as robustifying such models under adversarial attacks.
- Network Intelligence:** Engineered AI modules to predict network resource demand, improving resource allocation efficiency by 15% (Published research).
- Anomaly Detection:** Developed Autoencoder and LSTM-based models for detecting anomalies in network flows and behavioral analysis, Network Intrusion Detection System.
- Explainable AI:** Conducted research on Explainable AI (XAI) tools (LIME, GradCAM).

ML Research Engineer

Wargaming Group 01/2024 – 06/2024

- HPC Experiments:** All experiments were run on an HPC cluster utilizing multiple GPUs.
- Offline RL:** Trained different Offline RL policies (IQL, CQL, BC, AWAC) on large logged real game data (appr. 100GB) of the World of Tanks game, as well as on a simplified World of Tanks environment (Simulation, Grid Game).
- Off-Policy Evaluation (OPE):** Collaborated with R&D to validate RL agent performance using OPE, on the World of Tanks simplified environment.
- OPE Case Study:** Developed an OPE repo for running OPE (FQE, Model-Based Dynamics, Importance Sampling) for evaluating Offline RL policies (d3rlpy, torch).
- Benchmarked the OPE pipeline for **Halfcheetah** and **World of Tanks** environments, to validate and compare performance.

Teaching Assistant

University of Cyprus 01/2025 – Present

Assisted in "Computational Neuroscience" masters course in English. Delivered tutorials on HHsim, Neuron, and Brian tools; graded assignments and mentored students.

Data Scientist Intern

AC Goldman Solutions 06/2020 – 08/2020

- Developed a Credit Scoring Machine Learning model for the banking sector.
- Implemented XAI techniques to interpret model decisions and built a Flask-based UI.

Education

MSc in Artificial Intelligence

University of Cyprus 2022 – 2024

General Grade: 8.94/10. (Taught in English)

Thesis: "Offline Reinforcement Learning in World of Tanks". Conducted in collaboration with Wargaming Group (see Work Experience).

BSc in Computer Science

University of Cyprus 2017 – 2021

General Grade: 8.31/10.

Focused on Computational Intelligence, Information Retrieval, and Probability Statistics.

Ioannis Pastellas

AI & Machine Learning Engineer

About Me

AI & Machine Learning Engineer with an MSc in Artificial Intelligence and expertise in building full-stack AI solutions and research. Keen on Learning more about AI and especially Agentic Systems, Reinforcement Learning, Robotics. My vision is to help optimize Society through Artificial Intelligence.

Certifications

- **Practical RL (Honors)**
HSE University (Coursera)
- **AI Infrastructure and Operations Fundamentals**
NVIDIA (Coursera)
- **DevOps, DataOps, MLOps**
Duke University (Coursera)
- **Finetuning & RL for LLM: Intro to Post-Training**
AMD (DeepLearning.AI)
- **Spec-Driven Development with Coding Agents**
JetBrains (DeepLearning.AI)
- **Fast & Efficient LLM Inference with vLLM**
Red Hat (DeepLearning.AI)
- **Learning How to Learn: Powerful mental tools to help you master tough subjects**
Deep Tech Solutions (Coursera)
- **CyberHOT Summer School**
Cybersecurity Hands-on Training

Key Courses

- Machine Learning (9.5/10)
- Natural Language Proc. (9.0/10)
- AI Ethics (9.0/10)
- Algorithms & Complexity (9/10)

Interests

- 🎸 Electric Guitar (Self-Taught)
- ⚽ Football

Personal Projects

Semideus Learn (A Learning and Cognition Platform) [↗](#)

Next.js, TypeScript, Supabase, Mastra, FastAPI, GCP, Qdrant

AI-native platform that turns documents and notes into a cross-linked knowledge-graph wiki, then proves the user actually understood it. A multi-agent layer (Mastra) drives Socratic dialogue, adaptive tests, spaced-repetition recall, and spoken teach-backs – including a teachable AI “protégé” the user tutors, that asks naive questions, pushes back, then sits a test whose score becomes their proof of mastery. Mastery only advances on demonstrated understanding, never self-report.

Semideus Train (Fitness & Performance App) [↗](#) *Mobile App*

React Native, FastAPI, AWS

AI-native fitness app delivering personalized strength, and nutrition programming, with adaptive training plans and progress tracking.

Publications

- 2026 **Multi-Agent System for Automated Red Teaming Workflows: Methodology and Architecture**
I. Pastellas, S. Karagiorgou, E. Kafantaris
Manuscript
- 2024 **AI-fuelled Dimensioning and Optimal Resource Allocation of 5G/6G Wireless Communication Networks**
P. Papaioannou, I. Pastellas, C. Tranoris, S. Karagiorgou, S. Denazis
IEEE MeditCom (pp. 413-418)
- 2024 **Adversarial Explanations for Informed Civilian and Environmental Protection**
T. Anastasiou, I. Pastellas, S. Karagiorgou
IEEE International Conference on Big Data (pp. 2672-2681)
- 2025 **Explanation-Driven Adversarial Attacks against Multimedia Edge Applications**
T. Anastasiou, I. Pastellas, S. Karagiorgou, M. Konidi
6th International Conference in EEITE, Greece
- 2025 **Adaptive Policy-Driven Network Intelligence for Edge-to-Cloud Continuum**
I. Pastellas, S. Karagiorgou, M. Konidi
31st ICE IEEE/ITMC Conference (Valencia, Spain)

Awards

Highest Overall Grade Lanitio Lyceum **Academic**

Awarded for achieving the highest overall grade in Mathematics & Physics in the school year.
